NEWSLETTER

Patrick Andrews, Editor

October 2012

NEXT MEETING SET FOR THURSDAY, OCTOBER 4, 2012

The next meeting of the Ocala Camellia Society will be on Thursday, October 4, 2012, at the Pioneer Garden Club, located at the Appleton Cultural Center Complex, 4331 East Silver Springs Boulevard (SR 40), Ocala, Florida.

We will meet for refreshments at 6:30 p.m., and the regular meeting will begin at 7:00 p.m. Bring whatever food item you want to share.

Tom Brantley will be our guest speaker, and his talk will be about bonsai. Tom Brantley has been involved with Bonsai since 1972. His brother teaches horticulture and brought home a book on bonsai. Tom was hooked ever since. He studied with John Naka, who was the premier Bonsai Master of this century. John Naka has a display at the National Arboretum in Washington, D.C.

He has also studied with other wonderful instructors through the years. Tom was one of the founding members of the Marion Bonsai Society, and he is their president at this time.

In late March and early April the Marion Bonsai Society will have a Bonsai exhibit at On Top of the World. They would like to invite everyone to go and see the exhibit.

The meeting will conclude with a plant auction to benefit the Ocala Camellia Society. Please bring any plants you would like to donate for the auction to the meeting.

PRESIDENT'S MESSAGE

Welcome back for another exiting year of socializing and learning, as we explore new and old ways to make our camellia gardens beautiful. Joe and I have already found a few blooms in our yard and can't wait for the enjoyment and pleasure we all experience, as our gardens begin to put out magnificent flowers that will soon grace our homes.

We are thankful, for all of you, faithful members of the Ocala Camellia Society. And we are already making plans that will help increase our membership. Our Club is given an opportunity to present two lectures to the members of the Prestige 55 program, which is 26,404 members strong. This will be a wonderful opportunity to introduce our club to other camellia lovers in our community who do not know about us.

The American Camellia Society is having a membership contest again this year. The individual who brings in the most new members will receive a \$200.00 gift certificate. I would highly recommend joining the American Camellia Society - the information and the photos from the magazines are excellent. OCS members who join ACS before 12/31/12 can do so for half price -- \$15!

We are in search of a new secretary and a vice-president for our club. Please think of who would be the best person to fill these positions that were vacated last summer due to resignations. This needs to be done in our next meeting.

With high expectations for a successful blooming season, your president, Zlata Sabo.

CAMELLIA CULTURE -- LATE

DISBUDDING: Disbudding is the process of removing all but one bud from the tip of a branch. You should never leave two or more flower buds side by side if you want big, beautiful flowers. Plants have only so much energy for each bud, and if there are too many, none of the buds may open completely. You may also want to remove interior buds from a branch, as these will also take energy from the terminal bud. Some growers even take single buds from some branch tips so the plant's energy will be directed to even fewer buds. If you have ever wondered how some growers consistently have larger flowers, this is the reason. Don't be shy about removing buds.

GIBBING: Gibbing is the process of removing the growth bud next to a flower bud and filling the "cup" with a drop of gibberellic acid. This causes the remaining flower bud to swell and bloom much earlier than it normally would, and in most cases the flower is much larger. Start gibbing around Labor Day, and treat several buds on large bushes at weekly intervals. Don't gib more than one or two buds on small bushes, if at all. You can order a gib on the web; just Google Progibb.

SPRAYING: Spider mites and scale insects are still a problem at this time a year, so keep a close eye out for them. Spider mites cause the leaf to appear bronze, particularly along the central rib, and can ruin the look of the foliage. Scale insects can be seen on the lower surface of leaves and result in yellowing and dropping of the leaves. You can spray with Orthene (or other chemical) to control

SUMMER AND EARLY FALL

mites. Insecticidal oil (such as Ultra Fine) kills mites and scales but be sure to coat both sides of the leaves, and do not spray during hot temperatures. Check with local camellia growers for other spraying tips and to find out what they spray with to control these insects.

COLLECTING AND PLANTING SEEDS: Some of your camellia seeds have probably already matured, but you can continue to collect and plant fresh seed through September. Place the seeds immediately in moist vermiculite or other soilless mix, and cover with plastic wrap until they sprout, at which time you can plant them in pots.

PLANTING: Potted camellias can be planted at any time of the year, but remember to water at least twice a week. Be sure to plant them above the soil level to allow for settling. Never plant a camellia at a level lower than it is growing in the pot.

WATERING: It is very important to water regularly during any dry periods. Camellias should receive a deep watering (1 inch) once a week. This is true year-round, but is more crucial during dry periods.

FERTILIZING: You probably do not want to fertilize after the end of August or very beginning of September, as you do not want to encourage plant growth at this time of year. You can use any fertilizer up until this time, but if you fertilize after September, you should use only a very low nitrogen fertilizer, and fertilize lightly. Be sure to spread the fertilizer out to the drip line.

(continued in the next column)

MINUTES OF THE SEPTEMBER MEETING by Laura Perdomo

The meeting was called to order on September 6th, 2012 by Zlata Sabo, the Ocala Camellia Society President. She welcomed everyone to our new year and was excited to be our new president. The refreshments provided by Marge Hendon and Zlata Sabo were delicious and enjoyed by all. Abigail Schaefer resigned as Vice President and John Schaefer resigned as Treasurer by written letter to Zlata. Zlata read the minutes from the last March meeting and the Treasurer's Report sent by John Schaefer. The minutes and the treasurer's report were approved as read.

Joe Sabo motioned for Laura Perdomo to become Treasurer. Ann Greenwood seconded. The position of Secretary is still vacant.

(continued in the next column)

A brief discussion was held on how to get new members to join. Zlata mentioned the OCS getting involved in giving a lecture with information about care of camellias to Prestige 55. This could help attract more members. Marge Hendon said to just invite someone to come with you.

Our program was a wonderful slideshow with music Zlata put together of camellias blooming in her own garden. The pictures and plants were amazing.

The September meeting adjourned and a plant auction was held afterward to benefit the club, with plants donated by Patrick Andrews and Bob Weidman.

TREASURER'S REPORT

By Laura Perdomo

Sept. 2012

Laura Perdomo

Starting with \$6,373.55

Description	In	Out	Total
Plant Sales and Dues	\$98.00		\$6,471.55
Total Inflows	\$98.00		
Total Outflows		0	
Net Total for the Period	\$98.00		

New Balance: \$6471.55

DUES REMINDER

Hopefully you have already paid your dues for the 2012-2013 year. If not, you can fill out the membership renewal form on page 4 of this newsletter and send it with your check to Laura Perdomo, Treasurer, at the address on the membership form, or pay her at the next meeting.

NEW!!!

AMERICAN CAMELLIA SOCIETY CALENDARS

ACS is excited to announce its first ever camellia wall calendar for 2013! They are taking preorders now through October 15, 2012. The regular price of the 2013 calendar is \$12.95 each. ACS members are eligible for their 10% discount and Clubs/Societies are eligible for their 25% discount (minimum order of 25). **Our club will be putting an order together at the upcoming meeting.**

To order, please call toll free at 1-877-422-6355. Calendars will be held by a credit card but not charged until shipped (est. shipping date 10/29/12). Shipping and handling charges will apply. Limited quantities of the 2013 Calendar will be ordered, first come, first serve basis only, no reorders.

ATLANTIC COAST CAMELLIA SOCIETY

The Atlantic Coast Camellia Society met in Litchfield Beach, South Carolina on September 14-15. This regional camellia society is affiliated with the American Camellia Society and serves the states all along the Atlantic Seaboard from Virginia down to Florida.

All Florida camellia society members are welcome to join the Atlantic Coast Camellia Society, and those Florida members in attendance were very warmly welcomed at this year's meeting. Contact Patrick Andrews if you would like more information on how to join the ACCS. Patrick was just elected as second vice-president, and is also the membership committee chair.

Dues are currently \$15 and will remain that next year for individuals, but for couples it is going up to \$25. Now is a good time to join so you can still get the \$15 membership for couples.

The benefits of being a member of the ACCS are the wonderful magazine they publish, and the friendships made between camellia lovers all over the south and east at the annual meeting.

OCALA CAMELLIA SOCIETY NEWSLETTER

Patrick Andrews, Editor

November 2012

http://www.americancamellias.org/ocala_camellia_society.html

NEXT MEETING SET FOR THURSDAY, NOVEMBER 1, 2012

The next meeting of the Ocala Camellia Society will be on Thursday, November 1, 2012, at the Pioneer Garden Club, located at the Appleton Cultural Center Complex, 4331 East Silver Springs Boulevard (SR 40), Ocala, Florida.

We will meet for refreshments at 6:30 p.m., and the regular meeting will begin at 7:00 p.m. Light refreshments will be provided, but feel free to bring whatever finger food item you want to share.

Our guest speaker, Matthew Israel, was born and raised in Macon, GA. He attended the University of Georgia with a degree in Landscape Architecture. After graduation he worked at the UGA State Botanical Gardens in Athens, GA, and also for the University doing landscape maintenance. Matthew also worked in construction in Atlanta, where he was Regional Manager for Roper Construction. After moving back to Macon, Matthew started doing freelance residential garden design. It was during this time he began volunteering for NewTown Macon, a non-profit group focusing on the revitalization of Downtown Macon. In lieu of payment, the president of NewTown Macon said he would send his portfolio and resume out. Within a week he received a phone call from ACS and was working at Masee Lane only a few days later. Matthew has been Operations Manager for ACS and Masee Lane Gardens for almost 2 years now. He still volunteers at NewTown where they are working out the design of the site where the original Camellia Gardens of the Camellia Society began.

The meeting will conclude with a plant auction to benefit the Ocala Camellia Society. Please bring any plants you would like to donate for the auction to the meeting.

MINUTES OF THE OCTOBER 4th MEETING by Laura Perdomo

Zlata Sabo welcomed everyone and called the meeting to order at 6:45 PM. The minutes from the September meeting were approved. Madeline Braisted volunteered to be secretary. Patrick Andrews motioned for her to become secretary. Linda Sanders seconded. Everyone approved. Marge Hendon nominated Susan Dunn to be Vice President. Joe Sabo seconded. Everyone approved.

Marge Hendon volunteered to take the membership list and call all the people with the last names of A-H. Donna DiSclafani said she will call I-M. Linda Sanders said she would call N-Z, but she needs a list of people from Patrick Andrews. Patrick said he will send a membership list out to everyone.

OCS will be participating in Prestige 55 in January. Tuesday, January 15th, 2013: 5:00-6:30 at the Auxiliary Conference Center by the hospital, and Thursday, January 17th, 2013: 3:00-4:30 at the Collins Center. Patrick will present, but we need people to help and also bring flowers to show people.

The club will purchase 25 calendars from ACS for the 2013 year.

We need volunteers for the January show. We should get blooms to put with the plants for sale if anyone has any extra blooms so people know what they are buying. Patrick mentioned adding some new categories for club members like small, medium, large tray of three, 9 boutonnières, etc.

Joe Sabo has a neighbor giving away 8 established bushes. You have to dig them up, but they are free.

Zlata said we should have a night where we invite and honor a grower, maybe with a certificate or an honorary membership.

Our speaker for this evening had cancelled. The meeting concluded with a plant auction with plants donated by Patrick Andrews and Bob Weidman.

CAMELLIA CULTURE -- LATE SUMMER AND EARLY FALL

DISBUDDING: Disbudding is the process of removing all but one bud from the tip of a branch. You should never leave two or more flower buds side by side if you want big, beautiful flowers. Plants have only so much energy for each bud, and if there are too many, none of the buds may open completely. You may also want to remove interior buds from a branch, as these will also take energy from the terminal bud. Some growers even take single buds from some branch tips so the plant's energy will be directed to even fewer buds. If you have ever wondered how some growers consistently have larger flowers, this is the reason. Don't be shy about removing buds.

GIBBING: Gibbing is the process of removing the growth bud next to a flower bud and filling the "cup" with a drop of gibberellic acid. This causes the remaining flower bud to swell and bloom much earlier than it normally would, and in most cases the flower is much larger. Start gibbing around Labor Day, and treat several buds on large bushes at weekly intervals. Don't gib more than one or two buds on small bushes, if at all. You can order a gib on the web; just Google Progibb.

SPRAYING: Spider mites and scale insects are still a problem at this time a year, so keep a close eye out for them. Spider mites cause the leaf to appear bronze, particularly along the central rib, and can ruin the look of the foliage. Scale insects can be seen on the lower surface of leaves and result in yellowing and dropping of the

(Continued in the next column)

OCALA CAMELLIA SOCIETY NEWSLETTER

Patrick Andrews, Editor

December 2012

http://www.americancamellias.org/ocala_camellia_society.html

NEXT MEETING SET FOR THURSDAY, DECEMBER 6, 2012

The next meeting of the Ocala Camellia Society will be on Thursday, December 6, 2012, at the Pioneer Garden Club, located at the Appleton Cultural Center Complex, 4331 East Silver Springs Boulevard (SR 40), Ocala, Florida.

This is our annual Holiday Potluck Dinner meeting, so we will meet for dinner at 6:00 p.m., and the regular meeting will begin at 7:00 p.m. Bring your favorite dish to share, savory or sweet. We probably need more savory dishes than we do desserts.

We have a great activity planned for everyone at the meeting. We will all know more about flowers and what makes a flower good or excellent by the end of the meeting. We will all get hands-on experience in judging flowers, and it will be a lot of fun.

The meeting will conclude with a plant auction to benefit the Ocala Camellia Society. Please bring any plants or gift items you would like to donate for the auction to the meeting.

LEE AND LINDA SANDERS HOLIDAY OPEN HOUSE

Everyone is invited to Lee and Linda Sanders' Christmas Open House on Sunday, December 2, 2012, from 2 to 5 p.m. Their address is 7918 SW 103 Loop, Ocala, FL (Hidden Lake), phone 352-351-9210. Directions: Take SR 200 west to SW 80th Ave. Turn left and go 1 mile. Turn left on 103rd St. Rd. and go 0.5 mile. Turn left on 74th Tr (Hidden Lake). After 0.4 mile, turn left on 103rd Loop (third street on left), and theirs is the seventh house on the right (peach color with tile roof). Call if you get lost – 352-351-9210.

MINUTES OF THE NOVEMBER 1ST MEETING

by Madeline Braisted, Secretary

Our Nov. 1, 2012 meeting began at 7 p.m. Susan Dunn chaired the meeting since president Zlata Sabo was unable to attend the meeting. Patrick Andrews introduced our speaker for the evening, Matthew Israel from ACS headquarters at Masee Lane Gardens in Fort Valley, Georgia. Matthew described his work as the Operations Manager for the ACS, including procuring new signage for the camellia plants with metal stakes, refurbishing the greenhouses, major improvements to the Camellia House (former horticulturist resident), and the Japanese Gardens. The formal gardens were cleaned up, a new parking lot was created, and planting of the species garden in the West field was started. Matthew brought a PowerPoint program with pictures to accompany his talk. Truly major accomplishments over a two-year span!

Marge explained that Zlata and Joe had a family death that week and Linda made a motion to donate \$25 for a memorial for their son, Jonathan Sabo. Patrick moved to accept the minutes from the October meeting as published in the newsletter; Nita Marsyla seconded the motion. Laura Perdomo gave the treasurer's report, showing a balance of \$6,683.55.

A letter from Prestige 55 was read regarding presentations. The dates we will be giving camellia presentations are Tuesday, January 15, from 5:00-6:30 and Thursday, January 17 from 5:00-6:30. The new ACS camellia calendar was displayed, and the cost to members is \$13.00. They can be purchased at the upcoming meeting. Patrick explained that show planning is moving forward and everything is falling into place. It was announced that we will have our annual pot luck dinner at the December meeting, which will begin at 6.p.m. Everyone thanked those who brought snacks to the meeting. Linda Sanders announced that she will host a Christmas Open House on Sunday, December 2, from 2 to 5 p.m.

The meeting was adjourned at 8:30, followed by an auction of eight beautiful camellia plants donated by Bob Weidman, Patrick Andrews, and Lawanda Packard.

SHOW PRIZE AWARD DONATIONS NEEDED

We need award sponsors for our upcoming show, and so far very few people have signed up. Please dig deep in your pockets to sponsor at least one prize at \$20. You can give your contribution to Laura Perdomo at the upcoming meetings – either December 6, or January 3, or send your contribution, with a note that it is for prize sponsorship(s), to Laura Perdomo, Treasurer, Ocala Camellia Society, 11960 NE 52nd Place Road, Silver Springs, FL 34488.

VOLUNTEERS NEEDED FOR VARIOUS SHOW DUTIES

We need as many helpers as possible to put on our show on January 26 and 27. The various duties include: setup on Friday afternoon (including placement of table cloths and filling cups with water), teardown on Sunday at 3:30 (emptying cups, throwing away flowers, folding table cloths, etc.), placement helpers to place flowers on tables (must have a steady hand), judge clerks (to mark award winners and take flowers to the contention table), plant sales, and to be on hand during both days of the show to answer questions and recruit new club members. Please contact Patrick Andrews at the meeting and sign up on one of the sign-up sheets, or by phone to indicate how you would like to help.

ATLANTIC COAST CAMELLIA SOCIETY

The Atlantic Coast Camellia Society is a regional camellia society, affiliated with the American Camellia Society, and serves the states all along the Atlantic Seaboard from Virginia down to Florida.

All Florida camellia society members are welcome to join the Atlantic Coast Camellia Society. Contact Patrick Andrews if you would like more information on how to join the ACCS. Patrick is the second vice-president, and is also the membership committee chair.

Dues are currently \$15 and will remain that next year for individuals, but for couples it is going up to \$25. Now is a good time to join so couples can still join for \$15.

The benefits of membership in ACCS are the wonderful magazine they publish, and the friendships made between camellia lovers all over the southeast at the annual meeting.

JOIN THE ACS FOR HALF-PRICE

If you have never been a member of ACS and would like to join, NOW is the perfect time. From now until December 31, ACS is offering one-half price memberships -- \$15 -- to new members who have never been a member of ACS before but who are members of a local club. You need to use a specific order form, and can either pick one up at the meeting in December, or I can email one to you. You must use the special product code "LCD2012."

ACS CALENDARS AVAILABLE

ACS published their first-ever calendar for 2013. Each month has a fantastic painting of a camellia flower. You will be impressed at the beauty of this calendar. We still have 13 available, so plan to pick some up at our upcoming meeting on December 6 -- for you and some to give away as gifts. When they're gone, they're gone!

A REASON TO PLANT CAMELLIA SEEDS!

One of the most exciting aspects of growing camellias is planting some seeds, watching the plants grow, and then seeing them bloom for the first time. While many seedlings are not unique and really not worthy of registering, some are truly outstanding, and these are destined to become the new "must have" camellias for all serious camellia growers. Local growers Clarence "Gordy" and Lillian Gordy have produced some of the most exciting blooms to come along in years. This picture is one of their newer discoveries that is being considered for registration.

CAMELLIA CULTURE -- WINTER

(Continued from the previous column)

PLANTING: This is the best time of year to plant camellias. They are dormant now, so they won't be putting on leaf growth. The roots, however, will continue to grow all winter. You may want to add a little Super Triple Phosphate fertilizer to the hole when planting, but don't overdo it. This fertilize promotes root growth but not leaf growth. Be sure to plant them above the soil level to allow for settling. Never plant a camellia at a level lower than it is growing in the pot. Keep newly planted camellias well watered.

WATERING: Watering is critical in November and December, since these can be very dry months. It is very important to water regularly during any dry periods. Camellias should receive a deep watering (1 inch) once a week. This is true year-round, but is more crucial during dry periods.

SPRAYING: Spider mites and scale insects can still be a problem at this time a year, so keep a close eye out for them. Spider mites cause the leaf to appear bronze, particularly along the central rib, and can ruin the look of the foliage.

(Continued in the next column)

Scale insects can be seen on the lower surface of leaves and result in yellowing and dropping of the leaves. You can spray with chemicals such as Orthene to control mites, but a better, more environmentally friendly solution would be to spray with insecticidal oil (such as Ultra Fine or Ultra Pure). These oils kill mites and scales but be sure to coat both sides of the leaves, and do not spray during hot temperatures. Check with local camellia growers for other spraying tips and to find out what they spray with to control these insects.

GIBBING: You can still gib blooms to make sure you have blooms to enter into specific shows this winter. Gibbing is the process of removing the growth bud next to a flower bud and filling the "cup" with a drop of gibberellic acid. This causes the remaining flower bud to swell and bloom much earlier than it normally would, and in most cases the flower is much larger. Be sure not to gib more than one or two buds on small bushes, if at all. You can order a gib on the web; just Google Progibb.

DISBUDDING: Continue disbudding if you find more than one bud at the tips of branches to ensure that the remaining bud will open larger and more beautiful.

OCALA CAMELLIA SOCIETY
EXECUTIVE COMMITTEE

The officers of the Executive Committee of the Ocala Camellia Society for 2012-2013 are:

President: Zlata Sabo, 352-237-5537
Vice-President: Susan Dunn, 352-694-4461
Secretary: Madeline Braisted, 352-854-6500
Treasurer: Laura Perdomo, 352-625-6467
Directors: Patrick Andrews, 352-595-3365
Charles Nichols, 352-694-2973
Marge Hendon, 625-3510
Bob Weidman, 352-595-3365
Lawanda Packard, 352-237-0271

OCALA CAMELLIA SOCIETY

The Ocala Camellia Society meets on the first Thursday of each month, September through March; refreshments and socializing at 6:30 p.m., and the meeting at 7:00 p.m. Members, friends, and interested gardeners from the general public are invited to attend. Members are encouraged to bring friends.

October 4 2012, Pioneer Garden Club
November 1, 2012, Pioneer Garden Club
December 6, 2012, Pioneer Garden Club
January 3, 2013, Pioneer Garden Club
January 26-27, 2013, Ocala Camellia Show
February 7, 2013, Pioneer Garden Club
March 7, 2013, Pioneer Garden Club

The Pioneer Garden Club is located at the Appleton Cultural Center Complex, 4331 East Silver Springs Boulevard (SR 40), Ocala, Florida.

OCALA CAMELLIA SOCIETY
APPLICATION FOR MEMBERSHIP FOR 2012-2013

The Ocala Camellia Society is a local society, affiliated with the American Camellia Society, whose members meet the first Thursday night of the month, September through March, and presents an annual camellia show during January. The monthly meetings are devoted to various cultural aspects of camellias. Annual dues are \$10 for individuals and \$15 for couples. Dues are collected in September for the camellia season. Please complete the application below for membership in the Ocala Camellia Society.

OCALA CAMELLIA SOCIETY

TREASURER’S REPORT by Laura Perdomo
NOVEMBER 2012

Starting with: \$6683.55

Description	In	Out	Total
Plant Auction	\$99.00		
Dues	\$50.00		
Calendar Sales	\$172.00		
			\$321.00
ACS Calendars		\$250.00	
Speaker Hotel Fees		\$82.08	
County Line Plants		\$1,026.00	
			\$1,358.08
Total Inflows	\$321.00		
Total Outflows		\$1,358.08	
Net Total for the Period		(\$1,037.08)	

New Balance: \$5646.47

People that paid their dues from November:

Mary Closson
Laura Perdomo
Donna and Charles Nichols
Anita and Husband

OCALA CAMELLIA SOCIETY NEWSLETTER

Patrick Andrews, Editor

HAPPY NEW YEAR!

January 2013

http://www.americancamellias.org/ocala_camellia_society.html

NEXT MEETING SET FOR THURSDAY, JANUARY 3, 2013

The next meeting of the Ocala Camellia Society will be on Thursday, January 3, 2013, at the Pioneer Garden Club, located at the Appleton Cultural Center Complex, 4331 East Silver Springs Boulevard (SR 40), Ocala, Florida.

We will meet at 6:30 for refreshments and socializing, and the regular meeting will begin at 7:00 p.m. A guest speaker has not been announced as of this writing. The main focus of the meeting will be on getting ready for our annual camellia show, which will be at the Pioneer Garden Club on Saturday, January 26, from 2 p.m. to 5 p.m., and Sunday, January 27, from 12 p.m. to 4 p.m. Setup will be Friday, January 25, so please show up around 2:00 or 3:00 p.m. to help get the building set up to receive flowers. Those who help out will be treated to pizza when we are finished on Friday afternoon.

The meeting will conclude with a plant auction to benefit the Ocala Camellia Society. Please bring any plants or gift items you would like to donate for the auction to the meeting.

DUES AND AWARD SPONSORSHIP REMINDERS

If you have not paid your current year's dues, please pay them before the show to help defray the costs of the show.

Some members have already signed up to sponsor awards for the upcoming show, but we still have quite a few unsponsored prizes. Please dig deep in your pockets to sponsor at least one prize at \$15. Send your contribution, with a note that it is for prize sponsorship(s), to Laura Perdomo, Treasurer, Ocala Camellia Society, 11960 NE 52nd Place Road, Silver Springs, FL 34488, or give it to her at the upcoming meeting.

MINUTES OF THE DECEMBER MEETING

By Madeline Braisted, Secretary

After a wonderful Holiday potluck dinner the Dec. meeting began at 7:15. Zlata thanked everyone for the cards and condolences. Minutes from the November meeting were approved. The Treasurer's report published in the newsletter was discussed and clarified. Thirteen ACS calendars are left for purchase by our members

There was no old business. Under new business, Patrick Andrews discussed the January camellia show and asked for volunteers for setup, cleanup, clerking, placement, and plant sales, and for award sponsors. Regarding publicity, Patrick had sent out a flier for members to distribute around town. Patrick suggested that someone else be show chairman next year to help bring fresh ideas. He suggested that we consider adding a second vice-president as an officer, where the second vice-president would be program chairman and the first vice-president would be show chairman. Members will consider this for possible vote at a later date.

President Zlata Sabo announced that the Prestige 55 presentations will be Tuesday, January 15 from 5:00 to 6:30, and Thursday, January 17 from 3:00 to 4:30. She asked that members who will be attending bring some flowers for the tables. Patrick and Zlata will present the program. Our club voted to donate \$100 To ACS and voted to join the Atlantic Coast Camellia, with first-year membership dues being \$15.

The program followed. The members divided into 4 groups, headed by Patrick Andrews, Bob Weidman, Marge Hendon, and Charles Nichols. We learned a great deal about flower judging as we moved to each group. This was a great educational idea and one that was truly needed and appreciated. The meeting was adjourned at 8:30, followed by the plant auction.

YOU ARE INVITED TO OUR ELEVENTH ANNUAL CAMELLIA OPEN HOUSE

Please join us on Sunday, January 20, 2013, at 1:00 p.m., for the eleventh annual tour of our Camellia and other gardens -- rain or shine! We are constantly planting new cultivars and other types of plants, so there are plenty of new plants and flowers to see. This is also a chance to get first choice of the camellia plants that will be sold at our upcoming show. The japonicas and hybrids are \$25, and the reticulatas are \$35. We will be hosting the Ocala Camellia Society, the Gainesville Camellia Society (meeting at 2 p.m.), and other gardening friends. Delicious refreshments will be served.

Our address is 950 NE 189th Lane, Citra, FL.

From Gainesville: Go south on US 441, go east on CR318, and then left on NE 10th Avenue. Follow the paved road around (it changes name three times in a few short blocks) until the pavement ends. Take a sharp right onto NE 189th Lane (dirt road), and our house is the third on the right (you will pass a tall Red Cedar hedge).

From Ocala: Go north on US 301 to intersection with CR 318 in Citra, go west on CR 318 about a mile, and then right on NE 10th Avenue. Follow the paved road around (it changes name three times in a few short blocks) until the pavement ends. Take a sharp right onto NE 189th Lane (dirt road), and our house is the third on the right (you will pass a tall Red Cedar hedge).

The house is white with dark green trim. Be sure to wear comfortable clothes and walking shoes. We hope to see you! Bob Weidman and Patrick Andrews. 352-595-3365

CAMELLIA CULTURE -- WINTER

(Continued from the previous column)

PLANTING: This is the best time of year to plant camellias. They are dormant now, so they won't be putting on leaf growth. The roots, however, will continue to grow all winter. You may want to add a little Super Triple Phosphate fertilizer to the hole when planting, but don't overdo it. This fertilize promotes root growth but not leaf growth. Be sure to plant them above the soil level to allow for settling. Never plant a camellia at a level lower than it is growing in the pot. Keep newly planted camellias well watered.

WATERING: Watering is critical in November and December, since these can be very dry months. It is very important to water regularly during any dry periods. Camellias should receive a deep watering (1 inch) once a week. This is true year-round, but is more crucial during dry periods.

SPRAYING: Spider mites and scale insects can still be a problem at this time a year, so keep a close eye out for them. Spider mites cause the leaf to appear bronze, particularly along the central rib, and can ruin the look of the foliage.

(Continued in the next column)

Scale insects can be seen on the lower surface of leaves and result in yellowing and dropping of the leaves. You can spray with chemicals such as Orthene to control mites, but a better, more environmentally friendly solution would be to spray with insecticidal oil (such as Ultra Fine or Ultra Pure). These oils kill mites and scales but be sure to coat both sides of the leaves, and do not spray during hot temperatures. Check with local camellia growers for other spraying tips and to find out what they spray with to control these insects.

GIBBING: You can still gib blooms to make sure you have blooms to enter into specific shows this winter. Gibbing is the process of removing the growth bud next to a flower bud and filling the "cup" with a drop of gibberellic acid. This causes the remaining flower bud to swell and bloom much earlier than it normally would, and in most cases the flower is much larger. Be sure not to gib more than one or two buds on small bushes, if at all. You can order a gib on the web; just Google Progibb.

DISBUDDING: Continue disbudding if you find more than one bud at the tips of branches to ensure that the remaining bud will open larger and more beautiful.

OCALA CAMELLIA SOCIETY NEWSLETTER

Patrick Andrews, Editor

HAPPY VALENTINE'S DAY!

February 2013

http://www.americancamellias.org/ocala_camellia_society.html

NEXT MEETING SET FOR THURSDAY, FEBRUARY 7, 2013

The next meeting of the Ocala Camellia Society will be on Thursday, February 7, 2013, at the Pioneer Garden Club, located at the Appleton Cultural Center Complex, 4331 East Silver Springs Boulevard (SR 40), Ocala, Florida.

We will meet at 6:30 for refreshments and socializing, and the regular meeting will begin at 7:00 p.m. The guest speaker has not yet been announced.

The meeting will conclude with a plant auction to benefit the Ocala Camellia Society. Please bring any plants or gift items you would like to donate for the auction to the meeting.

2013 OCALA CAMELLIA SHOW

The 2013 Ocala Camellia Show was a huge success. We had 27 judges, including 4 novice judges, all of whom brought flowers to our show. We were blessed with fantastic weather, and we estimate there were about 600 people who attended the show.

The show results are included at the end of this newsletter. You will see some familiar names, and also some that may not be familiar to you. We had several greenhouse growers at this year's show, and they brought some fantastic flowers for us to see. The advantage to growing camellias in a greenhouse is that they are protected from the elements – cold weather, rain, bees, etc. Consequently, they are able to bring some of the more desirable flowers, such as reticulatas. Freezing temperatures cause these flowers to slow down outdoors, but this is not a problem for greenhouse growers. See all the results on pages 4 and 5.

MINUTES OF THE JANUARY MEETING – by Madeline Braisted

The meeting began promptly at 7:15 after we sampled some really great refreshments! Minutes from the December meeting were accepted and seconded. The treasurer's report was given by Marge Hendon in Laura Perdomo's absence, showing a new balance of \$6,012.47.

Zlata gave the dates and times for the Prestige 55 presentations: January 15 at 5:00-6:30 at Monroe Auxilliary Center, and January 17 at 3:00-4:30 at the Collins Center, Timber Ridge. Our president thanked us for the money sent to the American Camellia Society in memory of her son. We were invited to the Zabo home and Camelia gardens on January 13 from 2:00-4:00 pm. for their Open House with lots of exciting refreshments. She announced that Patrick and Bob are having an open house the following Sunday afternoon, January 20.

Discussion followed about the upcoming camelia show on January 26 and 27. Marge explained all of the categories: volunteer requirements to help with the judges, flowers, etc. We then signed up and filled up the slots. Mary Closson will be unable to prepare breakfast refreshments due to surgery, so we all volunteered to help bring food. The highlight of the meeting followed.

Joe Sabo accompanied by a wonderful slide show explained how to propagate camellias from seeds. He plants 3 seeds in each pot of soil -- no problem with the cold weather. It takes about 3 years for the plant to bloom. What was astounding was the flowers – colors and size -- produced from these seeds. Nothing like the parent plant in so many cases. The diversity was truly astonishing. The meeting was adjourned at 8:30.

CAMELLIA CULTURE -- WINTER

(Continued from the previous column)

PLANTING: This is the best time of year to plant camellias. They are dormant now, so they won't be putting on leaf growth. The roots, however, will continue to grow all winter. You may want to add a little Super Triple Phosphate fertilizer to the hole when planting, but don't overdo it. This fertilizer promotes root growth but not leaf growth. Be sure to plant them above the soil level to allow for settling. Never plant a camellia at a level lower than it is growing in the pot. Keep newly planted camellias well watered.

WATERING: Watering is critical in November and December, since these can be very dry months. It is very important to water regularly during any dry periods. Camellias should receive a deep watering (1 inch) once a week. This is true year-round, but is more crucial during dry periods.

SPRAYING: Spider mites and scale insects can still be a problem at this time a year, so keep a close eye out for them. Spider mites cause the leaf to appear bronze, particularly along the central rib, and can ruin the look of the foliage.

(Continued in the next column)

Scale insects can be seen on the lower surface of leaves and result in yellowing and dropping of the leaves. You can spray with chemicals such as Orthene to control mites, but a better, more environmentally friendly solution would be to spray with insecticidal oil (such as Ultra Fine or Ultra Pure). These oils kill mites and scales but be sure to coat both sides of the leaves, and do not spray during hot temperatures. Check with local camellia growers for other spraying tips and to find out what they spray with to control these insects.

GIBBING: You can still gib blooms to make sure you have blooms to enter into specific shows this winter. Gibbing is the process of removing the growth bud next to a flower bud and filling the "cup" with a drop of gibberellic acid. This causes the remaining flower bud to swell and bloom much earlier than it normally would, and in most cases the flower is much larger. Be sure not to gib more than one or two buds on small bushes, if at all. You can order a gib on the web; just Google Progibb.
